A hallway leads to a bright and beautiful double bedroom with wardrobes, a full bathroom with a tub and a storage room where the small boiler is also located.

All bedrooms throughout the house as well as the guest accommodation's lounge are equipped with ceiling fans, while the 3 bedrooms on the top floor also have air conditioning units installed.

## **EXTERIOR:**

The plot is entirely walled and fenced. The upper part of the plot is landscaped while the lower part is left in a more natural state, with many shrubs and bushes but with lots of potential.

The upper part of the land is mostly landscaped and graveled and kept low maintenance, with an irrigation system. A large sun

shade sail next to the entrance of the house provides shade for the parking area.

A couple of large olive trees are planted at the back of the house, where one will also find the solar panels and a 5.000lt reserve water tank. There are also 3 palm trees planted around the house.

The swimming pool in front of the house is about 36m<sup>2</sup>, with a depth from 1.40m to 1.70m. Tiled areas around the pool are perfect for sun lounges and a large pergola covered with canvas and dressed with curtains provides shade on the hot sunny days. The views from here are amazing.
